Under the agreement for 2015
Two Mile State School will receive

$29,950*

*Estimated on 2014 data. Actual funding will be determined after 2015 enrolment data is finalised.

This funding will be used to

- Increase the percentage of students achieving at or above the National Minimum Standard for Literacy and Numeracy for Years 3 and 5 students in 2016 to 100% or ensure Individual Learning Plans are in place.
- Increase the percentage of students in Year 3 achieving the upper two bands for Literacy and Numeracy.
- Increase teacher expertise through expert coaching in their capacity to diagnose and address student performance issues, and design individual learning programs.

Our strategy will be to

- Implement intensive intervention programs for students identified through school data (PM Benchmarks, PAT testing, school assessments, teacher observations and student reports) who are at risk of not reaching the National Minimum Standard for reading, writing and numeracy through developing individual learning goals; similarly plan extension for students capable of achieving in the upper two bands for literacy and numeracy.
- Regularly review achievement and adjust.
- Continue to implement early identification strategies to ensure effectiveness of programs starting from entry to school.

Our school will improve student outcomes by

- Literacy and numeracy coaching for teachers. $2,000
- Employment of teaching aides skilled through professional development to support reading, writing and numeracy based on data collection model. $27,950
